3. PROGRAM TO CALCULATE GROSS SALARY.

INPUT:

A screenshot of a code editor window showing a C program for calculating gross salary. The editor has a dark theme and a tab bar at the top with three tabs: 'pointer.c', '1_SIMPLE_INTEREST.c', and '3_gross.c'. The '3_gross.c' tab is active. The code is written in C and includes variable declarations for 'allowance', 'basic', 'deductions', 'tax', and 'gross' as floats. It uses 'printf' for prompts and 'scanf' for input. The calculation for gross salary is performed as 'gross = allowance + basic - tax - deductions'. The program ends with a 'return 0;' statement. Line numbers 3 through 27 are visible on the left side of the code.

```
Run Terminal Help Downloads
C > 3_gross.c > main()
3     float allowance;
4     float basic;
5     float deductions;
6     float tax;
7     float gross;
8
9     printf("ENTER DETAILS \n");
10
11    printf("ENTER BASIC SALARY: \n");
12    scanf("%f",&basic);
13
14    printf("ENTER TOTAL ALLOWANCES: \n");
15    scanf("%f",&allowance);
16
17    printf("ENTER TOTAL DEDUCTION EXCEPT INCOME TAX \n");
18    scanf("%f",&deductions);
19
20    printf("ENTER INCOME TAX: \n");
21    scanf("%f",&tax);
22
23    gross=allowance+basic-tax-deductions;
24    printf("THE GROSS SALARY IS : %f \n",gross);
25
26    return 0;
27 }
```

OUTPUT:

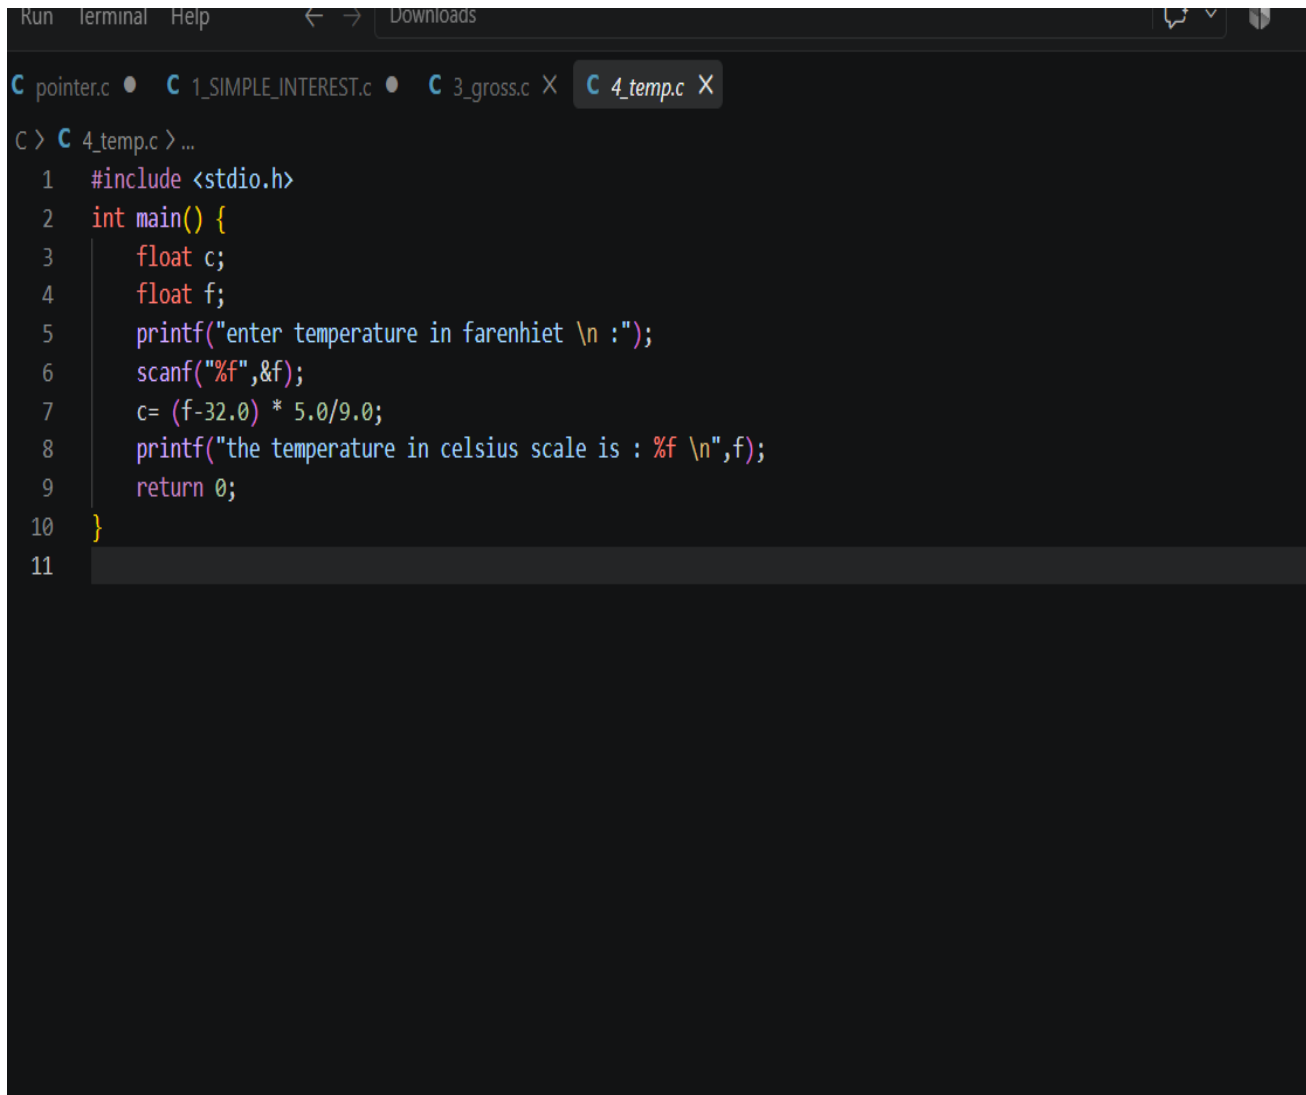

The image shows a screenshot of a terminal window within an IDE. The terminal has a dark background with light-colored text. The menu bar at the top includes 'Go', 'Run', 'Terminal', and 'Help'. Below the menu bar, there are tabs for 'Problems', 'Output', 'Debug Console', 'Terminal' (which is selected), and 'Ports'. The terminal content shows a program that prompts for salary details and calculates the gross salary. The prompts and inputs are as follows:

```
ENTER DETAILS
ENTER BASIC SALARY:
100000
ENTER TOTAL ALLOWANCES:
50000
ENTER TOTAL DEDUCTION EXCEPT INCOME TAX
15000
ENTER INCOME TAX:

4. PROGRAM TO CONVERT TEMPERATURE FROM FAHRENHEIT TO CENTIGRADE DEGREES.

INPUT:

```
Run  Terminal  Help  <  >  Downloads
C pointer.c • C 1_SIMPLE_INTEREST.c • C 3_gross.c X C 4_temp.c X
